

Among the pioneers of modern home comfort, no one stands taller than Dave Lennox. Working from his machine shop in Iowa, he single-handedly elevated the American standard of living by building the first Lennox® furnaces.

A Legacy of Vision and Innovation

Lennox is built on a legacy of innovative firsts, from the introduction of the riveted-steel furnace in 1895 to some of the most efficient air conditioners available today. Over the years, Lennox has set the standard for home comfort, and we continue to push the standard forward with a lineup of more than 60 leading-edge products and a network of more than 6,000 full-service dealers.

Dave Lennox *Signature*® Collection

When you choose Lennox, you know you're getting the best. And when you choose the Dave Lennox *Signature*® Collection, you're getting the best of the best. From the most quiet and efficient central air conditioner you can buy³ to the quietest furnace you can buy,¹ Dave Lennox *Signature*® Collection products represent the very finest in home heating, cooling and indoor air quality.

LENNOX® ELITE® SERIES

Elite® Series

True to their name, Elite Series products are a cut above when it comes to household comfort. With impressive features and capabilities, Elite Series products not only deliver exceptional comfort, but also outstanding energy efficiency. Compared to conventional heating and cooling products, Elite Series can save you hundreds of dollars in energy savings each year.

LENNOX' MERIT® SERIES

Merit® Series

The Merit Series combines legendary Lennox quality and time-tested technology to deliver a high level of dependability, efficiency and comfort. We're proud of the fact that many of our Merit Series furnaces, air conditioners and heat pumps have earned the reputable Good Housekeeping Seal. And Merit Series indoor air quality products are built to the same exacting Lennox quality standards.

Healthy Climate® Indoor Air Quality Solutions

The Healthy Climate® Solutions collection includes indoor air quality systems for every need, from industry-exclusive air purification to high-efficiency filtration systems. Designed to work with your central heating and cooling systems, these products control and enhance indoor air quality for an improved, cleaner and more comfortable home environment.

COMMITMENT

Lennox is proud to be named a four-time winner of the ENERGY STAR® Manufacturing Partner of the Year award by the U.S. Environmental Protection Agency and the Department of Energy. We are the first and only manufacturer in the heating and cooling industry to receive this prestigious award, which reflects our ongoing commitment to making and selling energy-efficient solutions that can save money and help protect the environment.

ENVIRONMENTAL PROTECTION POLICY

Lennox International is dedicated to protecting the environment in which we live and to conserving the natural resources we use, and will conduct our business accordingly.

This includes:

1. Complying with all applicable laws and regulations governing environmental protection
2. Maintaining a comprehensive environmental compliance program, including standards, procedures and audits
3. Educating, training and motivating employees to conduct their activities in an environmentally responsible manner
4. Incorporating environmental considerations within the criteria by which projects, products, processes and purchases are evaluated
5. Encouraging the use of non-polluting technologies and waste minimization in the design of products and processes
6. Promoting the conservation of resources and protection of the environment through recycling, reuse and proper disposal of materials
7. Anticipating and responding to public concerns about potential hazards and impacts of operations, products, wastes or services, including those of global significance
8. Continuing to improve environmental performance, taking into account technical developments, scientific understanding, consumer needs and community expectations

Implementation of this policy is a primary responsibility of [Lennox International](#), its subsidiaries and each facility manager, as well as their employees.
